THE BLAIRMORE ENTERPRISE THURSDAY, MARCH 14, 1935.

\$2.00 PER ANNUM

## FOR THRIFT AT HOME

Today, as in pioneer times, it is often the woman of the household who has the instinct and ability for careful management. Many women make regular Savings deposits as a cash reserve to provide for rent, insurance, taxes and similar obligations.

\*A Household Budget Book is available on request.

## THE ROYAL BANK OF CANADA

BLAIRMORE BRANCH - J. E. WILSON, Manager  
BELLEVUE BRANCH - E. E. CRANSTOWN, Manager

## ROUMANIA TAKES JOBS FROM EVERYONE WITH A \$50 MONTHLY INCOME

Sofia, Bulgaria.—A heavy embargo is imposed on thrift in Bulgaria by the government's new plan for aiding unemployed white-collar workers.

Persons with private incomes amounting to \$50 a month are to be virtually excluded from employment.

For example, if a bank clerk, or insurance company official, or electric plant employee, or foreman in a soap factory, or machinist in the

water works has a house or little farm, or an insurance policy or investment that brings him in a regular sum, he is to be dismissed from his post.

Grade school graduates in public employment are allowed a secondary income up to \$20 a month, high school graduates up to \$30, and university graduates up to \$45.

Mr. and Mrs. A. Vejprava and Mrs. Fraser left the early part of the week for Calgary, where they are attending the annual Pythian sessions.

## AMBROSE RIELLY KILLED

Ambrose Rielly, aged 54, an occupant of the Frank relief camp, was instantly killed by the eastbound C.P.R. passenger train on Sunday afternoon, when he attempted to cross the track near the Frank sub-spring, not hearing the approaching train. The wind was blowing heavily at the time, and with his ears blocked by his mackinaw coat collar, he could not hear the whistle. There were quite a number of eye-witnesses to the tragedy. The body was fearfully mangled. The train was immediately brought to a standstill and the body was extricated from beneath the trucks of the first passenger coach.

Rielly is said to have a brother living at Maidstone, Saskatchewan. An inquest was held at Blairmore on Tuesday, with Coroner F. J. Turner, of Bellevue, presiding. The following comprised the jury: L. L. Morgan, foreman, J. F. Smith, M. Sartoris, J. A. Kerr, E. Barnes and J. Scott.

A verdict of accidental death, attaching no blame to anyone, was returned.

## C. J. TOMPKINS BEREAVED

Mr. C. J. Tompkins received word on Saturday morning last of the death of his father, John N. Tompkins, who passed away at Margate Forks, Nova Scotia, on Friday night in his ninety-fifth year. He is survived by his wife, four sons, and one daughter: C. J. Tompkins, at Blairmore; Rev. Dr. J. J. Tompkins, at Antigonish, N.S.; Joseph Tompkins, at Margate Forks, and Nicholas Tompkins, at Kenora, Ontario; and Mrs. Edward Petrie, at Dominion No. 1, Sydney, N.S. Mr. C. J. Tompkins visited his father two years ago.

## BROTHER PINCHER CREEK MAYOR DIES IN CALGARY

Arthur Leroy Allison, brother of Mayor R. O. Allison, of Pincher Creek, passed away at Calgary on Friday night last, following an attack of pneumonia. He was a former resident of Pincher Creek, but of late had been in the employ of the Snyder Oil Company at Turner Valley. Surviving are his widow, Edna; a son, Bobbie, at Turner Valley; his mother, Mrs. A. Allison, in California; four sisters, Mrs. A. Lynch, in Montana; Mrs. C. E. F. Hiscocks, in Lethbridge; Grace, in Los Angeles, Maude, in Santa Barbara; four brothers, Roland O., in Pincher Creek; George, in Waterton; Lawrence, in sex County, and Earl, in Montana. Funeral services were held at the Pincher Creek United church on Monday afternoon by Rev. N. W. Whitmore, and the remains were laid to rest in the Pincher Creek cemetery.

## BELLEVUE HAPPENINGS

Mrs. C. W. Johnson entertained a number of friends at her home on Wednesday afternoon.

The tea given at the home of Mrs. J. J. McIntyre on Friday last, sponsored by the association of the Girl Guides, was a huge success.

Mrs. J. Longworth entertained the girls of her senior Sunday school class at her home last Wednesday.

Mr. and Mrs. Jas. Cousins, accompanied by Mrs. C. W. Johnson, motored to Calgary on Monday morning to attend the Rebekah and Oddfellow grand lodge sessions being held in that city this week.

Miss Alice Bogusch left on the Sunday afternoon train, to attend the Grand Rebekah Assembly.

Jack Connick, junior, has resigned his position with the Western Canada Wholesale Co. at Fernie, and left last week for Los Angeles, where he expects to enter a dramatic school with a view to becoming an actor.

## DELIGHTFUL PIANO AND VIOLIN RECITAL

A delightful piano and violin recital was carried out at the United church auditorium on Tuesday evening, sponsored by the church Philomath group, and very much enjoyed by the large audience in attendance. The programme as follows, was under the direction of Miss Chardon, leader of this girls' group:

Part 1. Piano Quintet (Suit of Classic Dances—Sarabande, Bourée, Air de Ballet, Gavotte), Isabel Westrup, piano; Catharine Rose, 1st violin; Helen Rose, 2nd violin; Jena Cruickshank, viola; W. H. Moser, cello. Piano solos—Rhapsodie Mignone, Margaret Murray; Romance, Umie Johnson; Fantasia in D min., Yvonne Harrison; Fantasia in C, Freda Antrobus; Valse Capricieuse, Doris Hales; Negro Dance, Isabel Westrup.

Violin solos—Allegro Molto, Sonatina, Op. 137, No. 1 and Czardas, George Kerr.

Part 2. Piano duet—Marche Hongroise, Doreen Chappell and Madeleine Chardon; piano solos—Valse, Jean Upton; May Night, Umie Johnson; Valse Arabesque, Wilma Wheatcroft; Kokiko Lullaby, Bobbie Dan; Minuet in G, Rose Oliver; Etude Fantastique, Lorna Hales.

Violin solo—Concerto, Catharine Rose.

Part 3. Piano solos—Rondo Capriccioso, Doreen Chappell; Cordova, Isabel Westrup; Island Spell, Doris Hales; Preambule and Romance, Jena Cruickshank. Piano Quintet, Popular Waltz and two English Hornpipes, 1. Westrup, C. Rose, H. Rose, J. Cruickshank and W. H. Moser.

## HILLCREST HAPPENINGS

The local high school students entertained their friends last Friday at a dance in the Union hall. Music was supplied by the "Rhythm Aces" orchestra.

Mrs. John Norton is visiting in Calgary.

Mr. and Mrs. Faus and Sonny, of Calgary, are visiting at the home of Mrs. W. Fisher.

A baby girl was born to Mr. and Mrs. Lelac last week.

Mr. Clarence Smith, of Calgary, was a visitor in town last week.

Mr. R. Richards and Gwyn motored to Calgary on Tuesday, to see the first Kimberley-Edmonton playoff game.

James Marshall, who is studying music in Calgary, is paying a short visit to his home here.

Mary Davies, who has been spending a vacation at home, returned to Calgary on Thursday. Mr. and Mrs. T. O. Davies accompanied Mary to Calgary.

G. E. Cruickshank, M.L.A., returned from Edmonton for the week end and left for the capital again on Sunday.

A meeting of the local Social Credit group was held in the Catholic hall on Sunday.

## COWLEY HAPPENINGS

The Cowley ladies' bridge club was entertained by Mrs. I. Christie at her home on Tuesday evening, when the honors were won by Mrs. James Lott and Mrs. A. Horning.

Word was received from Calgary, saying that Mrs. Edgar Cowin died on Tuesday in hospital there. She will be buried in a Calgary cemetery on Friday. Mrs. Cowin suffered a lingering illness of about eight years, when death finally relieved her of her suffering.

Mrs. Wilfrid Fortier, who underwent an operation for appendicitis in St. Vincent's hospital, Pincher Creek, is reported as making a rapid recovery, we are glad to report.

Granum Elks will hold their annual ball on Monday night next.

## PUBLIC HOLIDAY ON MAY SIXTH

Proclamations will be posted in every post office in Canada proclaiming May 6th, Jubilee Day, a public holiday, it is announced from Ottawa.

## 2-TON TRUCK; 300-TON LOAD

When you say a truck's power is 70 h.p. at 3200 revolutions per minute, what do you mean? The engineers may know, but a layman gets a better idea when the truck is put to test. They devised such a test at New Toronto the other day, giving a two-ton Maple Leaf truck a "load" of 657,600 pounds to haul. The truck was hooked up to Canadian National engine No. 6159, largest in the British Empire. With its fuel and water the engine weighed just under 329 tons. Miss Audrey McTavish took the wheel of the truck and Engineer James Dunn rode the cab of the locomotive just in case they got going too fast. The truck pulled the engine along quite easily.

Mrs. J. A. Kerr, accompanied by her son Jack and Roy Upton, left on Tuesday for Wetaskiwin, where she was called owing to the serious illness of her mother, Mrs. Jones.

A. H. Sherring, C.P.R. yard mechanic at Frank, underwent an operation for appendicitis in the Hillcrest hospital last week, and is reported doing nicely.

A Drumheller sports writer suggests a theme of songs for Coleman and Drumheller hockey players—"I Believe in Miracles" for Coleman, and "Out in the Cold Again" for Drumheller.

The body of Matthew Luke, a St. Eugene Mission Indian, missing since October the 18th, was found last week by the Indian chief on the St. Mary's reserve near Cranbrook, where he had been thrown from a horse.

Mrs. James (Puffy) Kemp, stopped off here on Sunday last to visit Mr. Kemp's parents, Mr. and Mrs. D. Kemp, sr. Mrs. Kemp came down from Kimberley with the Dynamiters who were enroute to Calgary to play against the Edmonton Superiors in the interprovincial playoffs of the Allan cup. She will likely remain here until the team returns home again.

A total of 5,899 cattle and 18 calves were exported from Canada to the United States from February 7th to 21st, 1935. Upwards of 4,700 were exported to Great Britain.

## "THE LAST GENTLEMAN"

The twenty-sixth of next month will be the one hundred and sixteenth anniversary of the founding of American Oddfellowship. The first lodge of the order on this side of the Atlantic was instituted in the city of Baltimore on April the 26th, 1819.

It has become known that Councilors Morgan and Packer were not authorized to visit Edmonton in behalf of relief matters here. The trip cost considerable money, which has to come out of the pockets of ratepayers.

The marriage took place at Invermere on February the 25th of Barbara Elizabeth, only daughter of Mr. James Scott and the late Mrs. Scott, of Invermere Heights, to Joseph, eldest son of Mr. and Mrs. Joseph Pie-Roszki, of Athlone, formerly of Blairmore.

All leaders in their class

### Man's Priceless Possessions

To keep one's head in times of emergency and crisis, remain cool, refrain from excess emotionalism, hysteria and panic, is a sign of strength, and men and women who display these characteristics prove to be the real leaders of their fellow citizens. That leadership may be demonstrated without uttering a word or doing anything spectacular, but merely by being unafraid, patient and unconcerned.

This truth was impressed upon us the other day by an incident reported in the daily press in connection with a fire which broke out on a railway car between Moose Jaw and Regina. There was a rush of frightened passengers to the rear door. One man urged calmness and an orderly exit, but little heed was paid to him. But another passenger remained quietly in his seat, looking with unconcern out of the car window. His attitude impressed others with the fact that there was little danger, and no need for undue alarm. People quieted down and a near panic was averted.

The world is passing through the stress and emergency of an unprecedented economic depression. It is a time to try the calibre of men and nations. Under prevailing conditions the striking of a small spark might easily cause an explosion, and a small flame spread into a great conflagration. There are individuals in all countries striving to take advantage of the present situation to stir up trouble. They are playing on the emotions of their fellow citizens, emotions which have been stirred to the depths by the personal problems, difficulties, sufferings and loss with which they have been and still are confronted. Times are ripe for the demagogue and the stirrer up of strife to ply their trade, reckless of what the final outcome might be.

But the strong men and women of the world, those who can be depended upon in times of emergency, are proving to be the real leaders in most countries. Were it not so almost universal chaos would by now be the lot of people everywhere. In this time of testing, the Canadian people have demonstrated their sanity and their strength. Notwithstanding all our problems and difficulties, and there are in no sense or degree to be minimized, the people of Canada, taken as a whole, have kept their heads, remained cool, and avoided panicky action.

In some countries people have so lost confidence in themselves and so given way to panic and become the victims of emotionalism, that they have sacrificed personal rights and liberties almost over night which it had taken generations of struggle by their forefathers to achieve for them. Thoughtlessly, in a spirit of panic, they surrendered some of the great fundamentals of life and living because they allowed others to unduly sway their emotions and neglected to keep cool and think for themselves rather than allow others to think and act for them.

Because this is so, the hands of the clock of progress have been turned back in such countries, and their future dark and discouraging compared with those other nations where the people, and their leaders, have kept their feet firmly planted on the ground and their heads cool and minds clear.

To-day in Canada and throughout the British Empire all people still enjoy that great safeguard of their liberties which is represented by a free and unencumbered press and the utmost freedom of expression. Every man and woman, no matter what his or her station in life, is absolutely free to express opinions, publicly or privately, in relation to any and all matters of public policy. They are just as free to criticize and condemn as they are to applaud and praise. If they are dissatisfied and opposed to those presently in positions of authority, they are free to express their dissatisfaction and to organize and give voice to their opposition.

No government agent sits in any newspaper office in Canada, no file of censorship orders lies on any editor's desk which must be obeyed. The radio, the pulpit, the public platform, is just as free to opponents of present governmental policies as they are to supporters of those policies. This is not so in many of the countries of the world. Hundreds of millions of people are now denied free expression of their views, opposition to the powers that be is prohibited, even the news of the day is censored, suppressed altogether, or colored to suit the views and policies of the prevailing dictator.

The essential fact for all Canadians to ever keep in mind is that, even if a so-called economic security could be obtained by them through these autocratic methods, the price to be paid is altogether too great. A slave may enjoy security provided by his master, but the fact remains he is a slave and nothing more, and what Canadian citizen desires to become a slave?

What the whole world is in danger of losing, unless the very people who have most to lose keep their heads, are the very fundamentals of civilization, namely, the liberties of the individual citizen. Once those personal liberties are lost, and might rather than right occupies the place of power and authority, it will be the great masses of the people, deprived of their democratic institutions and liberties, who will be the sufferers. Once lost the struggle to regain these priceless liberties will have to be re-commenced, because man was born to be free. The battle to restore civilization, liberty and equality will again have to be waged.

Liberty, freedom, personal rights are priceless possessions. They should never be surrendered for anything else, no matter how attractively that something else is presented, even the news of the day is censored, suppressed altogether, or colored to suit the views and policies of the prevailing dictator.

### New War On Grasshoppers

Menace Serious As Last Year

Alberta Farmers Told

Just as relentless a war against grasshoppers will have to be waged this summer and fall as last year by Alberta farmers or tremendous financial loss will result, Lieut.-Col. E. H. Strickland, professor of entomology at the University of Alberta, who was a visitor in Calgary, stated.

It is known that millions of grasshoppers will be massed ready for action as soon as their feeding season begins, but the counter offensive is more highly organized than ever before, due to sad experience in the past, resulting in a greater appreciation by farmers of the seriousness of the menace.

Col. Strickland stated that the present outlook in regard to the grasshopper menace was as serious as it was this time last year. In 1934, he said, very considerable damage was done by the insects, but the damage was inconsiderable when compared with the grasshopper plague between 1919 and 1922, when crops on farms everywhere in the province were wiped out.

Efforts are still being carried on to discover new methods to fight grasshoppers, according to Col. Strickland, but so far, the most practical and efficient method, has been the systematic scattering of poison bait.

### A BARBER WHO HAD RHEUMATISM

Tells How He Carried On

A barber who had been "a martyr to rheumatism" writes: "I have been a martyr to rheumatism for some ten years. For five years I was so affected that I was unable to do my business. I say I am a barber by trade. After having tried numerous remedies, I was finally advised to try Kruschen. I am pleased to say that after having used Kruschen for some twelve years I am now free of the pain and pains that I have been for some ten years. In fact, I consider I am 'off' of rheumatism, thanks to Kruschen Salts."—W. M.

Two of the ingredients of Kruschen Salts are the most effective solvents of uric acid known to medical science. They swiftly dull the sharp edges of the painful crystals, then convert them into a harmless solution. Other ingredients of these Salts have a stimulating effect upon the kidneys, and assist them to expel the dissolved uric needles through the natural channel.

### Shut Off From World

Four Nuns Working Among Primitive Tribes Of Papua

The four loneliest women in the world have passed through Port Moresby, Papua, on their way to what many must regard as a living grave.

They are nuns of the Carmelite Order. They have gone to spend the rest of their lives in the silence and seclusion of a little convent built specially for them some 30 miles inland.

There these four white women, who have dedicated themselves to a life of prayer and work among the primitive tribes of Papua, will shut off from the rest of the world. They will occupy separate cells, and meet each other only in their little chapel for liturgical services.

By the rules of their Order, they must eat no meat, wear no stockings and shoes, sleep on straw, not look into a mirror, and have no correspondence.

### Day Of Thanksgiving

Special Services Requested In All Canadian Churches

The Canada Gazette carried a proclamation requesting special thanksgiving services in all Canadian churches May 5 and setting aside May 6, the 25th anniversary of King George's accession, as a day of general thanksgiving and rejoicing on the occasion of our silver jubilee.

The thanksgiving services on the Sunday before jubilee day were described as giving an opportunity for "appropriate expression of gratitude to Almighty God for the manifold bounties and great mercies which our loving subjects, the people of Canada, have enjoyed during our reign."

Canadian cattle to the number of 15,562 head in 27 shipments were exported direct to Glasgow during the year 1934, as compared with 11,238 in 1933 and 4,016 in 1932. The quality was also greatly improved.

The more people become civilized, the more they increase their capacity for suffering. 2089

### WHAT DOES YOUR HANDWRITING REVEAL?

By LAWRENCE HIBBERT  
(Grapho-Analyst)  
(All Rights Reserved)

(Editor's Note: Marked interest is being shown in these articles, and letters are coming in in increasing numbers. Have you had your handwriting analysed? Have you any problem in which this well-known writer could help you? See his invitation following this week's interesting article.)

A surprisingly large number of readers have written in, from time to time, asking for advice regarding friends with whom they have become acquainted through the medium of correspondence clubs. Sometimes the object is merely to find out if there is any particular harm in this.

The real danger, however, when the object is more intimate; when, in fact, the man is married. The case in the United States in which a man became acquainted with a number of ladies through a correspondence club, and murdered them for their money, is well known.

Very frequently, however, women become embroiled with men and marry them, only to find that the impressions of the man were not what they were, and they have lived to rue their decision.

This article is especially aroused by a letter I have just received. It is from a lady reader in the East. She asks me about a man, living in the West, and wishes to know what I think of him. She is a widow, 38 years of age, with two pretty children, and very comfortably off financially. The man, on the other hand, is only 24, with two children, and is separated from his wife, because, he says, she made his life miserable, and was interested in other men.

He is very anxious to marry the widow, who is a widow, and he is anxious to divorce if he decides to marry him. Now I have seen letters that he has written. And they reveal not only that he is selfish and self-centred, but also has a violent temper. I cannot imagine anyone living with him having any happiness, because his temper is such that he will break out into a frequent fury, and this little that could be worse than this.

This man is avaricious. He knows that this widow has money, and he would like nothing better than to get possession of some of it. And there is also the fact that he is insensuous. Certainly, he is not the type of man for my correspondent.

There are many correspondence clubs. And this shows up one of the very real dangers that lurk in many of them. It is a married man, who first posed as a single man, until he thought he could appeal for sympathy to this widow.

I am not going to lay it down as an axiom for my readers that they should have nothing to do with correspondence clubs. That would be injuring the innocent as well as the guilty. For many people, living in remote parts of the country, and in many cases too retiring to correspond with many people locally, who find some similarity lonely soul elsewhere in the country, and conduct a correspondence that brings some rainbows into both lives. At times, happy marriages result from these mail acquaintanceships. But grave care must be taken by correspondents. The dangers should be borne in mind.

And it is especially to single girls that I address this word of warning. Women who have been brought up to do with correspondence, very often, better versed in life's intricacies, and have at least that much advantage.

In the case I have mentioned above, my advice to the widow is to have nothing to do with her married correspondent. I do not trust him, and believe that he will bring nothing but unhappiness to my correspondent, if any marriage is to occur.

One other word in regard to these correspondence acquaintanceships. Beware of any man who appeals for money. It may seem surprising that such a warning is necessary. And yet I have known of women who have sent money, following the interchange of letters through one of these clubs, and have lost it.

The author will analyse your handwriting for you, and he will tell you what your friends are really like, without the need of any specimens of the writing you wish to be analysed. Send birthdate in each case, and enclose 10c coin for each specimen. Send with a 3c stamped addressed envelope, to Lawrence Hibbert, care of Winnipeg Newspaper Union, 115 McDermid Ave., Winnipeg, Man. All letters are confidential. Replies will be forwarded as quickly as possible, but some delay is unavoidable, owing to the large number of letters that are coming in.

### A Pocket Submarine

Small Underwater Craft Valuable Addition To British Fleet

Britain's latest "pocket submarine," now being tested in the Channel, showing remarkable qualities of seaworthiness, quick diving and deadliness in attack.

The submarine, the H.M.S. Shark, is a mere pigmy compared with the big overseas type of 1,500 tons which preceded her. She is barely 800 feet long, 24 feet broad with a displacement of 670 tons. Yet she can "taxi" over 2,000 miles on the surface or, at full power, travel at nearly 16 miles per hour underwater.

For rapid diving she is unequalled by any other submarine. She can perform a crash dive in 30 seconds. In the bows are mounted six tubes for discharging the powerful 21-inch torpedo, a salvo of which would disable any battleship afloat. On deck are mounted quick-firing guns are mounted for use against hostile aircraft or light surface patrols.

Eleven of these powerful and handy little submarines are to be built. They are intended chiefly for coast defence, but would be quite capable of undertaking operations further afield if necessary. They have the additional advantage of being comparatively cheap, costing only about £50,000 each.

### GARDENING

Gordon L. Smith

**Sweet Peas**  
Sweet Peas must be planted just as soon as it is possible to get a space in the garden. They usually are one or two days in the ground when it is possible to work up the soil in the warm part of the winter.

This is the time and place for these flowers. They have best results in a climate where the summer is not too hot, and the winter is not too cold. They must have extra water during dry weather. It is advisable to sow in a trench and support on brush, strings or poultry netting. The trench should be a foot deep and in it put three or four inches of well rotted leaves, or manure. This, in addition to plant food, provides an extra material in which a deep root system can be developed. On top will be three inches of fine garden soil and place in this the seed, about two inches apart and the same deep. Gradually the spring and summer rains will fill in the remainder of the trench, and the stems and abundant deep roots. If the flowers are picked daily, they will bloom from early in the front.

**Starting Plants In Beds**  
Where many plants are wanted, the best arrangement for starting seed indoors is a hot bed, though where only a few plants are required, a shallow box in a sunny window will do. The bed or box should consist of an old window sash laid on a wooden framework about 18 inches high, and containing three or four inches of fine garden soil on a layer of fresh, slightly straw, horse manure. In an open place and facing south, dig a pit of the same dimensions as the window frame and about six inches deep. Into this put the manure. (If frost prevents digging, simply pile on top of the ground.) When well pressed down, the layer of manure should be about 18 inches thick. It is held in place by the sides of the pit and the frame. On top is placed two inches of light garden soil, preferably mixed with a little sand. The window is fitted snugly over the bed, and the sash is held up by a brick or stone. Catch the full rays of the sun. At first the soil will heat rapidly, but in about three days it will have cooled to about 60 degrees, which is the proper temperature. The seed is planted in rows about two inches apart, and the bed watered frequently. On warm days it will be necessary to ventilate by raising the window frame as high as possible. The second set of leaves develop then. The seedlings are transplanted to a cold frame, which is the same as a hot bed only without the heating manure, about three weeks before going outside. Here they are hardened thoroughly before being set out in their permanent quarters. No housewives who are interested in the house garden should neglect this practically the same. Boxes about three inches deep are filled with a mixture of soil and light soil and placed in a bright window, where, preferably, there is a double glass, to prevent cold draughts at night.

### Little Journeys In Science

PROTEINS

(By Gordon H. Guest, M.A.)

Proteins are very complex substances which always contain the element nitrogen. Proteolism cannot be formed without proteins, and thus we see that life itself is dependent upon them. The word protein comes from a Greek word meaning "to take the first place," because the importance of this group of substance was early recognized.

Proteins occur in all living matter and are present in all natural food stuffs. Due to the fact that they are the chief constituents of living animal tissue, they are most plentiful in animal foods, such as meat, eggs and fish.

Scientists have found proteins to be the most complicated substances for study. They have found that all proteins contain carbon, hydrogen, nitrogen, oxygen and sulphur, while some also contain phosphorus. Small quantities of other elements are found in certain proteins.

Proteins are used by the body for building tissue, and also for producing energy. For providing the material for growth in children, and for repairing waste tissue in adults, they cannot be replaced by any other foods. The proteins obtained from animal foods, such as meat, milk and eggs are more valuable for these purposes than the proteins in vegetables. Milk is a valuable source of protein and is especially good for children.

Science has shown that there are thousands of different kinds of proteins varying in structure and quality. During the process of digestion, the proteins are decomposed into simpler substances, known as amino acids. These are absorbed and recombined in new proportions, forming the proteins which have different properties than those which were taken into the stomach. Thus the proteins in food are different from those actually used by the body.

### Tested Eczema Remedy

In Prescription of Doctor

Your skin trouble—whether it is eczema, acne, hives, dandruff, ringworm infection or pimples and blotches—can be positively benefited by D.D.D., because D.D.D. is a tried and tested Eczema Remedy. D.D.D. was developed originally by Dr. D.D. Dennis, in 1915, and is now a registered trademark of Dr. Dennis's Italian Balm. In 35 years D.D.D. has brought relief, healing and comfort to millions. That is the real test. Guaranteed to give instant relief or money refunded.

### London Zoo Takes Stock

Total Value Of Exhibits Is Forty Thousand Pounds

Stocktaking at the London Zoo has been completed, and it seems that the total value of all the animals, birds, and fish is about £40,000. First there is Molina and Mok, the young gorillas. Molina and Mok are worth about £500 each. Tigers have an easy lead over lions in cash value. A tiger is valued at £80 and a lion a little less. Flamingos are £12 10s. The three Indian rhinos deposited by the King, are the most valuable that the society possesses, and are worth £1,000 each. They come from Nepal and are very rare.

It is not wiser to kill a man with a pistol than it is to kill him with the poison of criminal gossip.

A golden roof of 500 A.D. has been uncovered in Turkey.

### HEALTH MEANS CHARM AND HAPPINESS

Sparkling eyes and smiling lips speak of health and happiness. The healthiest people are those who are most attractive. The healthiest people are those who are most attractive. The healthiest people are those who are most attractive.

Remember that 98 out of 100 women enjoy Roger. For extra energy, try Lydia E. Pinkham's Vegetable Compound. It is a tonic for the blood and health. Gives you more pep—more charm.

Remember that 98 out of 100 women enjoy Roger. For extra energy, try Lydia E. Pinkham's Vegetable Compound. It is a tonic for the blood and health. Gives you more pep—more charm.

## IMPOSSIBLE TO STABILIZE POUND STERLING NOW

London.—Neville Chamberlain, chancellor of the exchequer, told the House of Commons it was impossible to try to stabilize the pound sterling on gold under the present circumstances. At the same time he strongly denied the exchange equalization fund was being used for the purpose of depreciating sterling.

"There is absolutely nothing in the position of the pound which need give Britain a moment's uneasiness," he said. "The pound buys the same amount of goods internally as it did three years ago."

(A downward movement of the pound during the past week in relation to the United States dollar and the French franc had caused considerable speculation in foreign exchange circles.)

Chamberlain said he was unchanged in his view that there was no better international standard than gold but he said the government would not take steps to revert to the gold standard until conditions were so favorable that "having reverted, we are pretty certain of our ability to remain on it."

The chancellor of the exchequer said the exchange equalization fund "was never used and never was intended for the purpose of deliberately forcing sterling up or down." He declined to explain how the fund had operated recently, saying publicly would destroy its value.

If Great Britain tried to gold and the policies of either the United States or France "forced us to rid ourselves of the gold we had, we would put up the bank rate and begin to deflate," Chamberlain continued, "and we would be bringing about a serious state of affairs in this country by restricting enterprise and increasing unemployment. I do not believe we are in a position at present to take the risk of putting the pound at the mercy of either the franc or the dollar."

### Silver Jubilee Fund

Contributions Received From Persons Which Means Great Sacrifice

Ottawa.—The King George V. silver jubilee fund management noted receipt of contributions from many persons for whom donations meant "not only hardship but actual sacrifice." It said such conditions were revealed by correspondence enclosed with subscriptions received and acknowledged by the Countess of Beasborough.

One Montreal woman wrote: "I am not complaining, but my husband has not earned one cent for three winters; but such as I have I share for a great purpose and with a good heart."

Her Excellency received from a Toronto house for the aged 31 a note saying it was "from two Englishwomen, over 70 years old."

### Prepare Voters' Lists

No Decision Has Been Reached About The Revision

Ottawa.—Secretary of State C. H. Cahoon told the House of Commons that no decision had been made about the revision of the election lists which ordinarily would be started April 15.

There had been some discussion, he said, of allowing the present lists, now being printed, to stand without revision but the government had made no decision.

Questioned by Liberal leader Mackenzie King, the state secretary said some 4,500,000 names on the election lists had been put in type by the government printing bureau and the rest would be ready by April 1. There are about 5,800,000 names on the lists.

### Union Of Militia Units

Ottawa.—Another alliance between a Canadian militia unit and a regiment of the defence forces of an overseas Dominion was announced by Defence Minister Grotte Stirling here. The Edmonton Regiment, with headquarters in the Alberta capital, has been allied with the Kimberley Regiment of South Africa.

### Arrest Spy Suspects

Copenhagen.—Ten supposed United States citizens and a Danish Communist, believed to be under suspicion of authorities of attempting to establish an espionage or terrorist centre in Denmark, were arrested here.

### Foster Tourist Trade

Ottawa Members Discuss Possibilities Of Development

Ottawa.—Members had a field day in the House of Commons extolling the tourist attractions of Canada as a whole and their own parts of the country in particular. In their enthusiasm they could not find time in the three-hour session to pass a vote of \$200,000 to be used to foster Canada's inter-provincial and international tourist trade.

Railway Minister R. J. Manion sponsored the \$200,000 vote, an increase of \$100,000 over last year. He listened to all sorts of suggestions on how to attract more tourists—national highways built and maintained by the Dominion, extending across the country; a campaign in the United States to convince Americans that Canadians are not Indians or Eskimos; cheap week-end tickets on the railways; passes on Canadian railways for American senators and congressmen so they could discover something about the country, and right down the line to courteous customs inspectors and hotel keepers.

The only opposition to the vote was when several members claimed it was too small, one suggested it be increased over the years to \$200,000. The vote will be discussed another day.

Mr. Manion said that in 1929, \$309,000,000 was estimated as the value of the country's tourist trade and in 1934, \$140,000,000. Canada should have a tourist industry worth \$500,000,000 when prosperity returned, the minister said some scheme in mind but nothing definite had been decided regarding expansion.

Mr. Manion paid tribute to Canadian newspapers which had assisted in making Canadians tourist-conscious and aided the tourist bureau.

### Expansion Of Radio

No Definite Decision Has Been Reached At Ottawa

Ottawa.—No definite decision has been reached as to an expansion of the facilities of the Canadian Radio Commission. Hon. Alfred Durnane, minister of marine, told the House of Commons.

Hon. W. D. Exler (Lib., Waterloo North) said he had heard reports the commission proposed to spend \$1,000,000 on the acquisition of new stations. Mr. Durnane said he knew the commission had some scheme in mind but nothing definite had been decided regarding expansion.

### May Test Parachute Idea

Aviator Plans To Use One To Lower Aeroplane

Sacramento, Cal.—A spectacular attempt to lower a transport aeroplane, possibly filled with passengers, to earth with a giant parachute, will be made here, May 19, by Col. Ross Turner, noted speed flyer. The demonstration will seek to prove the feasibility of equipping transport planes with emergency parachutes. Several years ago Col. Turner dropped in an open biplane to earth safely in such a manner.

### Forced To Change Route

Imperial Airways Service Disrupted By Civil War In Greece

London.—Civil war in Greece has forced Imperial Airways to alter the route of its Empire service to and from Africa, India, Singapore and Australia.

Sidestepping Greece because of that government's temporary ban on the movement of commercial planes, the British ships, through the co-operation of the Italian government, will be routed via Malta, Benghazi, Tobruk and Alexandria.

### Sask. Checker Association

Ninth Annual Tournament To Be Held In Saskatoon

Saskatoon.—The ninth annual checker tournament will be held at the Empire hotel, Saskatoon, beginning on Tuesday, March 19, at 9 a.m. The annual meeting will be held Monday evening the 18th at 8 p.m. A cordial invitation is extended to all checker players in the province to come and participate in this which promises to be an unusually interesting tournament.

In the "A" class, 1st prize, the Hon. J. G. Gardiner and Wes. Champ trophy and cash \$10.00, and 2nd prize on down to ninth prize with cash and merchandise. "B" class, 1st prize, cash and merchandise \$10.75, and on down to eighth prize. Veterans' class, 1st prize, the Hon. S. J. Latia trophy and cash \$4.00, and on down to 4th prize. 2069.

### Robbery Is A Mystery

Big Gold Shipments Removed From Croydon Airport

London.—Scotland Yard had another puzzling case on its hands—how and by whom three boxes containing gold worth £12,000 (£120,000 at par) were stolen from the administration building of the Croydon airport.

No keys were missing and an outside oak door to the strong room was locked, but the inner steel door was open and the boxes gone.

They were difficult to handle on account of their weight, and how they were removed from the administration building and the airport itself without attracting attention of half a dozen officials constantly on duty was a mystery to the investigating detectives.

No fingerprints were found and this was taken to indicate the robbers wore gloves.

## WORLD WHEAT PACT ADMITTED A DEAD LETTER

London.—The 1933 world wheat pact admittedly became a dead document, five months before its normal expiration date, as the "big four" wheat nations gave up attempts to secure Argentine co-operation in controlling exports for the remainder of the crop year.

Little hope has been held that anything could be done at this late date, owing to Argentina's repudiation of the pact at Budapest last November on the grounds it was unfair to her, and the refusal of the Buenos Aires government to accept new proposals last month.

Until now, however, the other delegates have maintained Argentina was bound by the tentative quotas adopted late in 1933 for the current year, under which Argentina's 1934-35 shipments were restricted to 148,000,000 bushels.

Now the other delegates admit there will be no further enforcement of any provisions of the wheat pact or its subsidiary agreements by any of the 21 signatory countries. All the big four countries—Canada, the United States, Australia and Argentina—will begin planting in the next few months without any acreage limitations whatever so far as the world pact is concerned.

Argentina is now in a deadlock with the other three exporters, each side insisting it is up to the other to make new proposals. A scheme to base future quotas on the 1934 acreage, when all four countries made acreage reductions—Argentina, least, and Australia the most—was rejected by the South Americans. Then they rejected a proposal for allotting quotas on the basis of each country's percentage of world trade in the preceding year.

Argentina's last written reply to the other exporters, it was revealed, argued she does not feel it incumbent upon her to make a counter-proposal, especially as the proposals she rejected were combined offers of the other three powers.

### LONDON'S SAFETY BEACONS INTRIGUE BAMBINI

The safety traffic beacons, which have been installed throughout London to aid pedestrians crossing busy thoroughfares, proved a great attraction for Babe Ruth when he arrived recently. Here we see the "king" of baseball with his wife and daughter "sizing up" one of these Belshazzar monsters.

### PROMOTED

Group-Captain Fredrick Sorey, who, as a R.F.C. pilot, in 1916, brought down the Zeppelin L32 in flames at Billericay, Essex, has been appointed to command the R.A.F. Middle East depot at Abouki. He previously commanded the No. 3 armament training camp at Wisbech.

### Revolt In Greece

Whole Country Paralyzed With Fear And Misgivings

Ghevghelli, Greek-Yugoslav Frontier.—Despite the announcement of the Athens government that it has the situation in hand and expects soon to crush the revolution, neutral observers in Greece considered the situation highly dangerous.

Martial law prevails throughout Greece. The whole country appears paralyzed with fear and misgivings. Rail, telephone and telegraphic communications are cut off and normal activities are suspended.

While Greece proper apparently was free from military clashes, eastern Macedonia, Epirus and the Greek islands where the followers of former Premier Eleutherios Venizelos dominate, appeared to be in a state of ferment.

Heavy fighting with serious losses on both sides was reported between government troops and rebels in the Struma valley, which during the Great War was a most bitterly contested area between the allies and the central powers.

All telegraph and telephone service has been suspended, not only within Greece but to points abroad. Wireless and other places of amusement have been closed. All steamer services to Greek and other islands as well as to Greek ports on the mainland are suspended.

The entire plant and stocks of the Standard Oil Company at Salonika have been impounded by the government. Motor trucks, horses and other equipment belonging to foreign companies have been commandeered for war purposes.

### Calgary Relief Qualifications

Calgary.—Twelve months' residence in the city will no longer constitute automatic qualification for receiving city relief here, it was announced at the close of a civic relief committee meeting. In future all cases will be judged on their merits in deciding whether they should be civic, provincial or Dominion charges.

### Housing Plan

Would Revoke Scheme To Construct Homes In Winnipeg

Winnipeg.—Winnipeg's civic house committee presented for revival of the old housing scheme and expenditure of \$2,000,000 in 1935-36 on construction of homes for rental, sale or for rental with option of purchasing without reference to ratepayers.

At present the city has the right from the Manitoba legislature to go ahead with a \$1,500,000 program of rehabilitation and new construction if and when the voters give their approval, it was stated at a meeting of the committee.

The old housing scheme was in operation during 1919-23 and was administered by an independent commission of which the city treasurer was chairman. It made 712 loans totalling \$2,761,651 and arranged repayments so that borrowers made regular lump sum remittances for principal, interest and taxes.

### Life-Insurance Figures

Insurance Written And Paid For In 1934 Reaches Huge Sum

Ottawa.—During the year 1934 the net amount of life insurance written and paid for in cash in Canada was \$595,062,050, an increase of three per cent, over the corresponding amount written in 1933.

In making this announcement, the Dominion department of insurance states these are approximate figures compiled from annual statements submitted by the companies.

In 1934 ordinary insurance amounted to \$43,098,908, industrial insurance to \$144,041,679, and group insurance to \$10,931,463. The total net business in force in Canada on Dec. 31, 1934, was \$6,220,208,820, or a decrease of 4 per cent, over the corresponding amount at the end of 1933.

## WHITE PAPER IS BLAMED FOR HITLER REFUSAL

London.—Preparing formally to accuse the National government of endangering the peace of Europe, the Labor opposition, in the House of Commons, today, when Foreign Secretary Sir John Simon informed the house his visit to Berlin had been postponed on account of Adolf Hitler's cold.

Sir John impetuously informed the house he was in communication with the German government as to when the talks over the far-reaching security plans envisaged in the Anglo-French communique might conveniently be held. He refused to link Berlin's postponement with the white paper on increased armaments. The government accepts Hitler's explanation.

This white paper, written by Prime Minister Ramsay MacDonald, once pacifist, pointed to "unabated and uncontrolled" re-armament in Germany as one of the factors necessitating strengthening of the British forces.

Bitter over the substantial increases in British defence estimates, completed with the naval budget, the opposition decided to move a motion of censure on the government charging the Berlin postponement directly due to the white paper. The motion has no chance of success in face of the huge government majority, but it may provoke a stormy debate.

Sir John flatly turned down suggestions the white paper be withdrawn. Even among friends of the government the wisdom of its issuance on the eve of the Berlin meeting was sharply questioned.

The house laughed when Frederick Cook, Laborite, asked: "Will the foreign secretary take this opportunity to visit Moscow, where they have not lost their voices?" Sir John did not reply.

Prime Minister MacDonald was confined to his room with a cold. Pending a fresh German reply, the cabinet was without official information on whether the German government intends to renew its invitation. Indefinite postponement of which left the international situation very much up in the air.

Before the house opened the Labor members had a meeting at which, it is understood, Arthur Henderson, former Labor leader and now a private member of the house, rejected suggestions he resign the chairmanship of the world disarmament conference in protest against the British armament increases.

## INSURANCE BILL DEBATE SUBJECT IN COMMONS

Ottawa.—An attempt to incorporate a sliding scale of premiums in the government's unemployment insurance scheme failed in the House of Commons. It would apply to men who had steady work over a period of years and would draw no benefits from the fund.

Sir George Perley, who took over the bill when Premier R. B. Bennett had a setback and returned to his sick bed, said he could not accept the principle of graduated premiums suggested by Joseph Bradette (Lib., North Temiskaming) and approved by E. J. Garland (U.F.A., Bow River).

Although the opposition lost one decision, it gained a reserved judgment in another proposal. Premier Leader Mackenzie King attacked one clause of the insurance bill which conferred power on the commission to fine men and send them to jail for disregarding its regulations. Many opposition members protested granting power to an unnamed commission to establish a second criminal code without sanction of parliament. Sir George Perley said he would allow the clause to stand, pending further consideration.

The sliding scale of premiums was suggested by the northern Ontario members to establish a second criminal code without sanction of parliament. Sir George Perley said he would allow the clause to stand, pending further consideration.

The sliding scale of premiums was suggested by the northern Ontario members to establish a second criminal code without sanction of parliament. Sir George Perley said he would allow the clause to stand, pending further consideration.

A long discussion took place on a clause giving the insured employee a right to sue an employer who failed to make contributions under the act and recover from him the amount of benefit he had been deprived of.

### Bootleg Butter

Butter Running Across The Border Is Now Alleged

Toronto.—Shades of another day when run-running trucks scurried into the United States with Canadian liquor have come back. The Mail and Empire in a despatch from its Ottawa correspondent, says it's not run-running but run-buttering.

Bootleg sales of Canadian butter in the United States, the story says, have so depleted Canadian stores that the heavy surplus that has been troubling the federal department of agriculture has disappeared.

In fact, The Mail story says such quantities have been sold illicitly that a comparative scarcity of Canadian butter is in prospect. There has been a differential of five cents per pound between Montreal and New York butter prices and, according to The Mail, it is in the eastern newspapers that most of this new bootlegging has been carried on.

### Senate As Initiating Body

Should Handle Greater Amount Of Legislation, Says Melglen

Ottawa.—Initiation in the senate of a greater amount of legislation was advocated by Rt. Hon. Arthur Melglen in an address to visiting representatives of the Montreal junior board of trade. "There is no reason why the senate should not be the initiating body of much legislation," the upper house leader said.

Mr. Melglen advised his young audience not to be too confident of opinions formed early in life and not to be too confident these opinions were their final ones in relation to problems with which they had not come into direct contact. Old England, he said, which had succeeded, usually adopted the practice of the shrewd business man and watched the other fellow as he tried his experiments.

### Test Shipment Over Bay Route

Winnipeg.—Hon. D. G. McKenna, Manitoba minister of agriculture, will attempt a resolution in the legislature which, if adopted, would authorize funds to implement the department's proposal to send a test shipment of Manitoba cattle to Great Britain via the Hudson Bay route, it was learned here.

W. J. BARTLETT, PUBLISHER

Blairmore, Alta., Thurs. Mar. 14, 1935

## HOURS OF AN EDITOR

There is a minor war in progress in the newspaper world at the present time. It all started because the Toronto Mail and Empire registered a complaint that under proposed legislation there is no provision for an eight-hour day for editors, declaring that "many of them commonly work 12 or 14 hours a day, often seven days a week." This caused The Ottawa Journal to pronounce skepticism that editors worked even as long as eight hours a day.

As a matter of fact, it's a lucky editor who gets off with an eight-hour day. Or is he lucky? One doubts if the Mail and Empire editor would be happy if compelled to restrict his work to a miserable eight hours a day. And somehow one can't help but be mildly skeptical that a brilliant editorial page like that of The Ottawa Journal can be turned out in four or five hours' work. Even by the brilliant Journal staff.

Perhaps after all Will Rogers' plan of thinning out the ranks of those on relief is not too bad. It works this way: When anyone is dissatisfied with the country or its conditions, why, just ship him back to where he came from, the only stipulation being that he won't return. You can't blame people for being homesick, and railroads and steamship fare is cheaper than relief. So when he develops an acute case of nostalgia, just buy him a ticket and hand him his hat. Rogers says there are 60,000 Philippians in California who want to go back to their native islands, so why not let them go? The plan might work successfully here in Canada with a lot of those who are shouting loudest about the advantages of living under the Soviet Union in preference of our system.—F.J.S. in Cranbrook Courier.

One always wonders how a great man finds time to shave.

## Bright's HERMIT PORT and SHERRY

### Fortified Wines of Private Stock Quality

If you were the vintner of BRIGHT'S wines you could not reserve for your personal use at the vineyard anything finer than the HERMIT PORT or HERMIT SHERRY available in your own community! ... for every bottle of HERMIT is private stock quality ... it's the kind you'd set aside for yourself! ... and don't forget, it's FORTIFIED WITH PURE GRAPE BRANDY! It is goodly in body, gracious in taste, gentle in bouquet—the very essence of the grape.

## BRIDGE

Bridge is a four-sided epidemic which hits a man and his better half in the middle of their otherwise peaceful domesticity, and scatters it all the way from Dan to Beersheba. It is a game played by four rabid fanatics with fifty-two perverse cards, and undoubtedly has been the cause of more family trouble than loach, the eternal triangle and mother-in-law combined. The game was invented by the Chinese, who also discovered gunpowder, and it is still a question which is the more dangerous.

The object of the game is to keep your opponent from doing what you are trying to do, and then cussing your partner because you can't. Each player is dealt thirteen cards, all of which are from the six-spot down, and then the war opens. Each player bids his strongest suit, and then jerks his shins out of reach. If the player takes all tricks, he has made a grand slam, which is what his partner would like to give him if he doesn't.

According to the rules, it is occasionally advisable to "take your partner out," but it is left to your discretion what you are to do with him when you get him outside.

In every quartet of players there must be one elongated female, whose eternal cry is "What's the m-m-m?" and for whom prussic acid and arsenic are respectfully suggested. The most important thing to watch in a game of bridge is the scorekeeper.

"Do you find it cheaper to do your own cooking?"

"Much. Since I started, Fred practically eats nothing."

Man (having given up his seat in the street car): "I beg your pardon?"  
The Girl: "I didn't speak!"  
Man: "Sorry, I'm sure. I thought you said 'thank you'."

They were discussing the education of their children. "What's your boy going to be when he finishes at Yale?" asked one.  
"An octogenarian, I fear," the other replied.

COUNTER CHECK BOOKS—order them at The Enterprise office at the same price as you can get them at the factory, or from a traveller. Keep as much money as you can in Blairmore.

BLAIRMORE UNITED CHURCH  
Rev. Albert E. Lark, Minister

"Serve the Church that the Church May Serve You."

Services Sunday March 17th, the minister in charge.

11 a.m.—SENIOR SCHOOL.

2 p.m.—JUNIOR SCHOOL.

7.30 p.m.—PUBLIC WORSHIP.

ST. LUKE'S CHURCH NOTES  
Rev. A. S. Partington, B.A., Rector

Services Sunday, March 17th:

Sunday School at 10 a.m.

Morning service at 11 o'clock.

The Bible class will meet every Thursday in the church at 7.30 p.m. Everyone welcome.

## BLAIRMORE PUBLIC LIBRARY

The Library hours are Tuesdays, Thursdays and Saturdays from 7 to 9 p.m. The fees are \$1.00 for residents and \$2.00 for non-residents per year. Non-resident students attending the Blairmore high school admitted under resident membership fee of \$1.00 per year.

Defective eyesight will keep you out of military service, but will not interfere with your getting a license to drive a car. Pedestrians are much easier to hit.

## Here and There

Canadian Pacific liner Empress of Britain, flagship of the fleet of the company, left January 16 from New York on its fourth round-the-world cruise, visiting 32 ports in 120 days. Return to New York is scheduled for May 20, 1935. More than 31,000 miles will be covered by the ship on this cruise. This is Canadian Pacific's twelfth annual world cruise.

Four years old and still breaking records, the 25,000-ton Empress of Japan, newest and biggest of the Canadian Pacific Steamship Pacific fleet, rounded the Horn, Honolulu in six days, 16 hours, 53 minutes, putting the ship in possession of speed supremacy for all legs of the Pacific crossing.

It. Cortright, fireman, Canadian Pacific Railway, Engineer James Y. Ross and Yardman J. Brophy, Port Arthur, aboard yard engine "569" pulling 150 empty cars from Port Arthur to Port William, saw a woman lay her head on the rails just ahead of the engine. Cortright leapt through the cab window and from the front floor board jumped into time to drag the woman clear of the track.

Miss Georgia Englehart, slim girl Alpinist of New York, this summer climbed Mount Annapurna, highest peak in the Canadian Rockies, and in doing so completed her 10th ascent in the Banff-Lake Louise area. Two years ago she set a new woman's endurance championship by scaling 25 peaks in a single summer in that section.

Low winter fares good from December 15 to February 28 are being offered by the railways covering round trips to Canada's Evergreen Playground, that favored region in British Columbia called Vancouver Island, with the beautiful capital of the province, Victoria, and all the sports attractions of summer available during the winter months brought within the purse limits of the average Canadian.

The big event of 1935 will be the pageantry and picturesque functions of the 25th anniversary of King George's accession to the throne, set for May 6 next, which will continue until well into July. Summer sailings of Canadian Pacific liners have been planned to connect with these events.

The Laurentians, Eastern Canada's winter playground, face the biggest season in their history with an ambitious programme of ski events calling for 19 meets of various kinds, not counting the Dominion and international inter-collegiate championships extending from January 1 to April 21. It is announced by the Laurentian Zone committee of the Canadian Amateur Ski Association.

Recommendation of immediate implementation of the Best of Canadian report for professional ranks of the Civil Service of Canada was unanimous in the House at a business session of the Professional Institute of the Civil Service held recently at Ottawa.

The Coleman Canadians were decisively defeated by the Superiors 9-1 at Edmonton in the third game of the Monday night. Superiors met the Kimberley Dynamiters on Tuesday night at Calgary and went down to defeat by a 3-1 score. The second game will be played Thursday night at Edmonton in the interprovincial playoffs for the Allan cup.

Circulars were distributed through the postoffice here this week, advising a smut remover. Well, we don't know of any better market for that stuff than Blairmore!

At the trainmen's annual ball at Macleod, the grand march was led by Assistant Superintendent G. M. Cord and Mrs. J. P. McGregor, following round at Hamburg. It is estimated by Mayor J. W. McDonald and Mrs. McDonald. There were close on 700 persons in attendance. Just because Mike Murphy was chairman of the refreshment committee, that part of the programme was very much enjoyed.

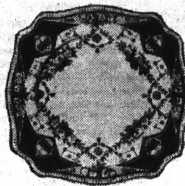

An exchange remarks: Tim Buck is managing to secure an undeserved amount of free publicity by running for parliament in Winnipeg. But Tim would not be dangerous were it not for the leading citizens and great financiers who prepare the soil to germinate communism.

## The Blairmore Enterprise

THE PARLIAMENTARY SHOW  
(By J. S. Cowper)

Now we know the worst—or do we?

Last Friday, Hon. Russell Love, brought down his budget as provincial treasurer. He estimates an income for the ensuing fiscal year of \$15,331,744.25 with expenditures of \$15,302,000.04. If it wasn't for \$729,253.57 required in addition for sinking fund requirements on provincial debts, it would be a balanced budget. Alas; despite an increase in the gasoline tax from 6 cents to 7 cents a gallon, it will still be \$699,479.36 short of requirements. That means the province will have to borrow that amount in order to keep on paying interest on its present borrowings.

Old age pensions call for \$69,000 increase and school grants for \$60,000 increase. An item of \$100,000 for election expenses denotes a coming general election—probably in mid-June. The province has settled for \$25,000 the judgment which was obtained by Mr. Powlett, of Calgary, for mental injuries to his son in a "hazing" ordeal as part of his higher university education. In his speech the provincial treasurer held out hopes of Dominion aid for refunding the \$131,000.00 debt of the province.

More light has been shed on the coming of Major C. H. Douglas as a result of Liberal efforts to table the correspondence between Premier Reid and Major Douglas. From this it appears that the Social Credit inventor is to get \$9,000 instead of \$5,000 as at first announced, and assurances of radio and press assistance. He cannot arrive before mid-May and stipulates for his fee in advance. The House has invited Mr. Aberhart to expound the Aberhart plan, though the speaker of the Legislature took the platform in Edmonton a few nights ago to denounce the Aberhart plan as unworkable and mischievous. If Major Douglas cannot arrive till mid-May and his plan cannot well be factors in a mid-June election.

One of these useful questions in

LIBERTY'S  
CANADIAN  
HALL OF FAME  
No. 1.

Governor General Vere Braddon Pomeroy, the Earl of Bessborough, first of his position to have a son born in Canada. He is fifty-four, stands six feet two inches and looks taller because of the tail hair he wears. His family is often called the "naughty Pomeroy's." Tracing his family back 400 years, he has ancestors who fought with Cromwell's Ironides. Before coming to

Hudson Bay, Ontario, he controlled a big railway in Brazil and a bigger diamond mine in Africa. He is a keen sportsman and keenly enjoys the theater. He has played most leading Shakespearean parts but likes to work back stage better. Owns a theater. He has twenty-three honorary degrees. Ours \$1000 a week for being Governor General. But thinks that's too much so he gives back \$100.

the public interest that may mean dollars in the pockets of many people, was asked in the Legislature by H. J. Montgomery, Liberal member for Wetaskiwin. He wanted to know the names and addresses of all those who had received gasoline and fuel tax refunds since Jan. 1st, 1934, "in cases where the application for such refund was not made within six months of the date of purchase."

Under the law of Alberta, all such refunds must be applied for within six months from the date of purchase. Judge of the surprise when the government filed a list of persons who had during 1933 and 1934 received refunds totalling \$8,403.15 contrary to the provisions of the Act.

"What's the sauce for the goose is sauce for the gander." Favoritism isn't defensible. As the government refunded \$8,403.15 to applicants who were outwaded by time, there's no reason why every other person shouldn't apply and have their overdue gasoline and fuel refund sent to them—or know the reason why.

Another piece of forward-looking public enterprise was advocated by Frank R. Falconer, Liberal member for Athabasca. In view of the reduced purchases of Canadian wheat by Great Britain, and the need to encourage the teeming millions of China and Japan to change from a dear and uncertain rice diet to a cheaper, stronger and more stable wheat diet, Mr. Falconer urged a comprehensive scheme to advertise the superior merits of Canadian wheat, backed by the governments of Western Canada and the Dominion. Japan for her own economic reasons has opened herself to explain to her people how best to prepare wheated foods, and Mr. Falconer thinks the time is ripe for the government to aid in creating markets abroad for Alberta wheat and flour.

The Agricultural Committee of the Legislature has been hearing university experts on scientific methods to determine exactly what debt a half section or more of land can bear in different parts of the province. Professor Wyatt is to apply investigations made by the University of Saskatchewan on Saskatchewan farms in various soil divisions to areas in Alberta with similar soil and climate conditions.

Any deduction authorized by statute on farm debts will have to apply also to school lands under purchase or that have been relinquished during the past few years, deputy minister John Harris told the committee. It will be necessary to have a Dominion Act passed to reduce the principal amounts due for the purchase of school lands, because the contracts were made with the Dominion Government.

Before the Agricultural Committee rises it will probe the question of relief, including the rural municipal districts, and especially the bush areas of the province, where relief allowance is said to be as low as \$1 per head.

## Here and There

Employed on railway construction 50 years ago, Thomas D. McMillan, 85, of Edmonton, claims the distinction of having placed the last carload of dirt on the C.P.R. when that trans-continental line was completed in the Pacific coast in 1885. Despite his advanced age he still has a clear recollection of incidents on construction.

Miss Mary McNeill, superannuated in December after over thirty years on the Upper Lakes as stewardess of the C.P.R. Great Lakes Steamships, spent almost her entire service as chief stewardess. E. S. Kowatz, sailing with her every season from her maiden voyage in 1908 until the close of the 1934 season.

Fortunes are being spent on research in the science of arguments but not one penny for research in the field of disarmament, said Prof. John Huxley, famous grandson of the even more famous Thomas H. Huxley, in outlining the nature and functions of science, its shortcomings and possibilities, at the Leonard Nelson Hotel, Halifax, recently.

"Our province will soon take an important place, if not the leading place, among the gold-producing countries of the world," stated Hon. J. E. Perrault, Minister of Roads and Mines of the Province of Quebec, in a recent address on "The Mining Industry of Quebec," at the Chateau Frontenac, Quebec City.

Interviewed at Victoria recently, N. R. Desbriay, assistant passenger traffic manager, Canadian Pacific Railway, stationed at Winnipeg, said that indications pointed to a better all-around tourist season for 1935 over 1934, much improved though that year had been over previous tourist seasons.

Ski-joring being a fast running horse, mauling with a team of huskies; skating, or skiing on the mountain trails all come under the heading of winter sports. The view of Miss Dorothy Standish who reigns as Banff Winter Sports Beauty Queen during this year's season in the Canadian Rockies.

Harry Loder, tourist, travelling along a highway near Banff by car recently, saw a golden eagle fly by the window of his car, and reaching out caught it by the neck and pulled it into the automobile. He turned the bird over to the Banff Zoo.

A forty-mile ski race, a forty-mile speed race, motorcycle and motor car races, figure skating, ice and men's hockey, championship speed skating, polo, ski-joring, trap-shooting, ski-jumping and water skiing events in the western part will be featured at the elaborate winter carnival at Banff on the week's programme beginning February 14.

Sailing recently on her fourth annual cruise across the Pacific, the ship which will take 130 days, with calls at thirty-three ports in twenty-four countries, the Canadian Pacific flag ship, Empress of Britain, left New York with close on 400 passengers. She will return to New York late in May.

Honoring Captain A. J. Haller, R. N. R. who retired from command of the Canadian Pacific liner Empress of Canada, and thirty-four years with the C.P.R., shipmates and shoreland friends presented him with an engraved wrist watch at a luncheon recently aboard the ship. Captain Haller left the ship with forty-five years of service behind him on the seven seas.

Hon. Hugh W. Allan, minister of municipal affairs said that of the \$8,000,000 spent by Alberta on relief, half had been used for direct relief and the other half for relief works. With Dominion and municipal contributions added, about \$22,000,000 has gone on relief in the province.

Relief applicants, as well as relief administration officials are to be heard by the Committee.

But for the burden of relief municipalities would have been freed from the 10 per cent levy for old age pensions, said Premier Reid when H. J. Montgomery, Liberal M.L.A. for Wetaskiwin moved to exempt the municipalities from making this contribution to old age pensions. The 10 per cent levy is the same today when the Dominion pays 75 per cent of the total as when the Dominion paid only 50 per cent.

Two northern Liberals were prominent during the past week. L. A. Giroux, of Grouard urged a substantial reduction of the royalty on furs, and J. M. Dechene, of St. Paul, urged the building of a main highway through the Northland from St. Paul to the Saskatchewan boundary, by way of Sturgeon, Whitford, Beaver River and St. Paul.

Hon. J. J. Maclellan, minister of highways, said that a northern road

## Three Major Canadian Problems

Tariff, agriculture and railway situation discussed by E. W. Beatty, K.C., LL.D., Chairman and President, Canadian Pacific Railway—Urges unified effort to solve questions threatening integrity of State.

A tariff structure based solely upon the actual economic needs of the country, and a deeper appreciation of a wider and more active application of sympathy to intelligent thought to agricultural problems; and the unification of Canadian railroads for the purpose of operation as the only means of overcoming the present disastrous debt structure created through public ownership, were the three major themes emphasized by E. W. Beatty, K.C., LL.D., Chairman and President of the Canadian Pacific Railway, during a forceful outline of this subject at a public meeting held in the city of Regina on February 5th.

Mr. Beatty felt that he had every right to discuss the tariff, citing the fact that the Canadian Pacific Railway was most decidedly susceptible to the effects of unstable tariff conditions. "Give me the tariff policy advantages of the Canadian National Railways and I shall be quite content," he said. "Mr. Beatty was neither a believer in free trade, nor a protectionist, but he believed in a tariff fairly distributed among the citizens. The Canadian tariff should be such that it would be beneficial to the national and external trade combined at a maximum."

Mr. Beatty illustrated his argument by citing the fact that Canada enjoyed a greater foreign commerce per capita than either of the two most important American Republics, namely the United States and the United Kingdom, and said that he would like to see the preparation of a tariff schedule which would give an analysis of the effect of the tariff on the total income and purchasing power of the Canadian people, and urged that in view of the present position of capital and labor, an examination of the economic soundness of our tariff policy should look to future improvement rather than to drastic attempts to correct past errors.

Emphasizing that agriculture was the primary industry, and voicing his appreciation that agriculture in Western Canada was passing through a period of great difficulty, Mr. Beatty said that governmental assistance and that of private business would be of little avail, unless the burden of the industry was reduced. "We, the people of Canada, owe directly or indirectly to private business over \$2,700,000,000, on account of the Canadian National Railways system. We are going to pay this because we promised to. "Are you going to allow your judgment to be warped by complex arguments about doing justice to public ownership? Or are you going to agree with me to let the ownership of the Canadian National Railways in the hands of the public—since they could not possibly get rid of it—and devote our entire energy to finding a method of making the burden of this ownership as light as possible to the people of Canada."

"Taking it that as business men you will not wish to gamble with a burden of railway deficits which threaten the financial stability of the nation when a reasonable alternative is before you, I have suggested what seems to me to be the only adequate course—the unified management of the two major railway systems. The amount which can be saved annually—now, not in

the future—would be considerable. The argument that there was no waste in transportation and all that the country needed to do was to await the return of prosperity was not, Mr. Beatty considered, sound. Restoration of business to the high level of 1925-1929, would not come as a gift of Heaven, or overnight, but only as a result of national industry and thrift.

Mr. Beatty replied to arguments that under his unification proposal the Canadian Pacific would take over the assets of the other railway, while the national and external trade combined at a maximum. "Unified management will do nothing of the kind. The physical assets of the Canadian National will remain the property of its owners. Similarly the liabilities of the Canadian National must remain the responsibility of the Government and the liabilities of the Canadian Pacific must remain that of its owners. However, if the assets of both companies are administered by a unified management, the waste of competition and the waste of the Canadian National's money will be met by their obligations."

The fact that only 25 per cent of the debt of the Canadian National Railways was due to the errors of private capitalists, or the errors of the Government, would not help the situation, Mr. Beatty charged. The errors of the Canadian National debt which in 1915 were \$38,000,000, had increased to \$1,000,000,000, and he said that the country could not afford to burden its industry with such a heavy load.

RELIEVES COLDS WITHOUT "DOSING"

## WORLD HAPPENINGS BRIEFLY TOLD

The new university library at Cambridge, costing \$2,500,000, will be officially opened by the King, Oct. 22.

An ancient monument built probably 4,000 years ago has been brought to light at Manghold, near Ramsay, Isle of Man, by archaeologists.

Another of the scientific world's "problems" dissolved with the announcement by a pair of Chicago scientists that they had perfected a method of producing liquid copper after eight years of private research.

In honor of the visit of the Canadian delegation to the fifth Imperial Press conference, an avenue of maple trees has been planted in Bloemfontein, South Africa, along the road leading to the memorial to Canadian victims of the Boer war.

Word was received from England of the selection of Dr. J. S. Foster, professor of physics at McGill University, Montreal, for election to the Royal Society of London, the highest honor that can be conferred on a British physicist.

Air Pilots, Engineers and Navigators' Association of Alberta has been granted a certificate of incorporation under the societies act of the province. Its objects are to promote and forward the interests of these aviation professions.

Further evidence that Great Britain is proceeding rapidly with development of her air bases in the Far East was seen when it was learned from an authorized source that at least \$5,000,000 would be spent in improving the base at Singapore.

## Women Anglers' Competition

Winnipeg Woman Wins Cup On Landing Largest Salmon At Coast

In competition with women anglers from Canada, United States and the British Isles, Mrs. Esther McMorran, 662 Broadway, Winnipeg, captured the Schwengers' cup for having landed the largest salmon in the annual contest conducted by the Victoria and Saanich Inlet Anglers' Association. Announcement of the award of the trophy to the Winnipeg woman was made by W. J. Halliday, secretary of the association.

The fact the contest extends over an entire year, from March 1 to February 28, makes the possession of the Schwengers' cup more valued by women anglers to whom it is offered for competition. Mrs. McMorran, on a visit to Victoria, landed a 26-pound salmon on a rod and line, in accordance with the association regulations. In addition to the cup for the largest salmon landed unaided by a woman, Mrs. McMorran is also awarded the bronze button of the association.

Every day upon this planet about 1,900,000,000 people eat.

## Are you tired, run-down, irritable?

Constipation steals your energy!

Thousands of sufferers from constipation have captured new health and vitality with Quaker Bran... a pleasant, natural corrective for constipation. Gentle, safe and effective... It stimulates sluggish intestinal muscles... produces regular healthy bowel movement. Eat Quaker Natural Bran with your regular cereal or in delicious muffins and cookies.

**QUAKER BRAN**

Pure, Natural, packaged bran.

A booklet of easy recipes is in every package. Remember, Quaker Bran is different from all prepared bran cereals. It is pure bran, uncooked—untreated with chemicals or preservatives. For these reasons it is definitely richer in mineral and vitamin content.

**QUAKER BRAN**

Pure, Natural, packaged bran.

## SUNDAY SCHOOL LESSON

MARCH 17

PETER DELIVERED FROM PRISON

Golden text: Prayer was made earnestly of the church unto God for him. Acts 12:5b.  
Lesson: Acts 12:1-19.  
Devotional reading: Psalm 34:1-8.

Explanations And Comments

James Killef: Peter Imprisoned, verses 1-4. Herod Agrippa I, grandson of Herod the Great, was now king, and he began at this time to persecute the leaders of the church at Jerusalem. He had James the brother of John, beheaded, and this deed pleased the Jews. It was "the days of unleavened bread," as the Passover was called, because no leaven, or yeast, was allowed in Jewish homes while the festival lasted. It was a time when the Jews were especially hostile to those who differed from them. Herod Agrippa I, Josephus says of him, "rejoiced in living in good reputation." He sought to still further enhance his reputation by having Peter imprisoned to await his execution at the close of the Passover. Executions were not carried out during the Passover, as the festival must not be polluted by the shedding of blood; and Herod was nominally a Jew (his grandmother, Mariamne, was a Jewess) and most scrupulous as to all Jewish observances.

Peter Delivered From Prison, verses 5-11. First of all in the record of Peter's escape, we are told that the church was earnestly praying for Peter. Peter was kept in prison, but earnest prayer was made for him. Notice the force of that little word but. It was the night before his trial and execution as planned by Herod that help came.

Peter was not troubled. He was calmly sleeping. The circumstances of his escape are minutely told, the coming of the angel [God's messenger], the light in the cell, the shaking of Peter, the brief words to make haste, the falling off of the chains, the girding and the putting on the sandals and outer cloak, the command to follow, the passing of the first and the second guard, the opening of the iron outer gate of the prison, the leading into the city, the going out and passing through one street, and then the being left alone. All this time Peter was dazed and did not know whether he was waking or dreaming, until he "came to himself" at the opening of the iron gate; then he said, "Now I know of a truth, that the Lord hath sent his angel to deliver me out of the hand of Herod, and from all the expectation of the people of the Jews."

## Soldier Settlers' Union

Largely Attended Conference Recently Held in Edmonton

Col. W. Rodger, Gibbons, was president of the Soldier Settlers' Union of Alberta at a conference held in Edmonton recently. Delegates from various sections of the province attended.

Discussion of the request, passed unanimously by all locals for presentation of a petition to the relief of the soldier settlers, featured discussion at the meeting.

The meeting agreed cancellation of all interest charges on soldiers' settlement lands was needed.

Other officers elected were: Vice-president, J. E. Hammond, Westlock; secretary-treasurer, J. E. Orr, Millet.

William Barker, Lacombe; N. Jackson, Brightview, and E. T. Neff, Leduc, were elected to the executive which was formed to work with the central executive at Lloydminster. Major Packman, secretary and R. T. Stewart, vice-president, on the central executive, also attended.

Information about the Soldier Settlers' Union will be gladly furnished by any of the above executive.

The fire prevention expert for the United States Department of Agriculture in a recent address stated that fire loss on farms would be substantially reduced if a ladder were part of the equipment of every farm. A ladder kept in a convenient place makes any roof fire quickly accessible and provides the means for occasional inspection of chimneys and flues.

## INFANTS COLDS

Relieved!

Young children easily catch cold. So Mrs. Susan West, of New Beach, Ont., wisely says: "If I notice that there is any sign of a cold I give Baby's Own Tablets. Thousands of mothers tell me not only for colds but for fretfulness, indigestion, constipation, teething troubles, colic, upset stomachs and all the ailments of the little ones. Baby's Own Tablets are safe and sure in every case." Price 25c.

Dr. Williams' Baby's Own Tablets

## GET RID OF THE CROWS

(By JACK MINER)

(Continued From Last Week)

Dear reader, the above is only a flash of the cruel, wicked, murderous ways of the black-necked raven. Fortunately, in those days there were not many crows. Really, I don't believe there were ten per cent. as many of them as there are to-day. We must not blame the crows for their increase. This is man's fault. We have gone wrong. We have combined our force with the crows and pointed all our attention at the game birds. Yes, and song birds, too, and left the organized nest robbers to multiply by leaps and bounds.

Thirty years ago no crows wintered in Ontario, but now they are with us the whole year around. In travelling from Windsor to Chatham, Ontario, a distance of less than 50 miles, I firmly believe I saw over 100,000 crows in less than an hour. There is another reason for their increase. The crow has been taught to steal from the nest of the robin, mourning dove and dozens of other species of lovely, desirable song and insectivorous birds. The raven is an inhabitant of the more dense woods, but will accustom the clearing for food and, up until the late 1800s and 1900s, the very height of my sporting ambition was big game. I usually carried four ordinary two bushel, twist cases and when I shot a crow I would bag the meat up, carry it a few rods and cover it with a bush with the meat in it. I would then look for a crow to come. When the party of us would return the next day to carry out the meat I have often seen as high as a hundred ravens fly up from the surrounding growth of one muskeg, now going over the same ground. I haven't seen a single raven for two or three years.

You see, the price of furs started soaring in 1904 and kept right on going up. Think of it! Mink skins that sold for \$1.00 each now sell for from 15 to 20 dollars. Fisher skins that sold for \$3.50 now bring \$100. And a game many other birds soared in proportion. The result is that in the last 15 years the woods have been overrun with trappers and although against the law the majority of them used quantities of strychnine and, just as soon as the ice will carry a man, about every lake in northern Ontario, has poison bait or baits upon the ice. Some trappers will shoot deer and moose for no other purpose than to make poison bait of it. By injecting the poison into the meat while warm, I understand, they make a most deadly kind of bait. Putting bait on the ice makes the trapper the biggest advantage of finding the fox, wolf, fisher, lynx, or whatever animal takes the least little bite of it. You might say with so much poison in the woods why don't this reduce the number of wolves? The fact is that the wolves are very shy and it is only the few experienced trappers that are able to get wolves to take poisoned bait.

In January, 1905, I was with a professional trapper. On going to his bait on a lake we saw that a raven had taken a few pecks of the bait, had flown about 50 yards and died. A fox had eaten part of the raven and lay stretched out within 20 feet of it. There was a fresh fall of snow and as the fox came from the direction we were going, tracked him back for fully one-half mile, and I am absolutely certain he did not get any other bait in that distance. Hence it is plain to see how the high

price of furs has all but exterminated the raven. In fact, the crow's only enemy, now, are the fox, the great horned owl and red-tailed hawk, but these three combined aren't one, two, three, with the raven. I have been asked by a great many people "why didn't this poison kill all the wolves?" In reply to this, let me say, the wolf is the shrewdest animal to poison or trap on earth. So many inexperienced people, carelessly putting out this poison, caused the wolves to be shy of any cold bait they saw. In fact, it is only as before they put any poison in it.

Before I go further, I want it distinctly understood that apparently all I let me. But how can I call myself humane and stand and see these black highway murderers of the air continually robbing the more desirable birds of their eggs and young, and hear the mother screaming and crying, "Help, Help, Help!" How can I be humane and hold myself when I know he is coming back to repeat this cold-blooded, murderous deed. Moreover, I know that if one of these insectivorous or song birds were left to mature, it would more good in ten minutes than a dirty old crow would do in a day. Think of all the good descendants of this one insectivorous bird would have been allowed to mature and raise young. Oh, but you sign and say, "Jack Miner, are you sure that you know what you are writing about?" Yes, I am. I have tested it out.

In 1910, I started reforestation near my home, in fact nearly all around my home. I secured the majority of the trees from the Ontario Forestry Department. The fifth year I had one nesting pair of mourning doves and now the doves nest and roost among these trees so thickly that they are actually breaking the limbs down. During May, June and July, I can take you to at least three hundred dead crowded dove nests in that

## Rheumatism

Is caused by failure of kidneys to remove uric acid poisons from the blood. GIN PILLS relieve by neutralizing this acid and restoring the kidneys to normal action—50c a box at all druggists.

## SCIENTISTS FIND FASTER WAY TO RELIEVE COLDS

Ache and Discomfort Eased Almost Instantly Now

When you have a cold, remember the simple treatment pictured here... prescribed by doctors everywhere today as the quick, safe way.

Because of Aspirin's quick-disintegrating property, Aspirin "takes hold"—almost instantly.

Just take Aspirin and drink plenty of water... every 2 to 4 hours the first day—less often afterward... If throat is sore, use the Aspirin gargle.

But be sure you get ASPIRIN. It is made in Canada and all druggists have it. Look for the name Bayer in the form of a cross on every Aspirin Tablet. Aspirin is the trade mark of the Bayer Company, Limited.

1. Take 2 Aspirin Tablets.

2. Drink full glass of water. Repeat treatment in 2 hours.

3. If throat is sore, crush and stir 3 Aspirin Tablets in a third of a glass of water and gargle. This soothes the soreness of your throat almost instantly.

DOES NOT HARM THE HEART

## Menu Fixed By Authorities

German People Have One-Dish Meal Every Month

First compulsory "one-dish meal" of the winter was served throughout Germany in all private houses, hotels and restaurants recently in place of the ordinary Sunday dinner. The menu was fixed by the authorities who offered a choice of one of the following dishes, served boiled each in a single pot—split peas and meat, macaroni and beef, mixed vegetables and meat. Storm-troopers called on every home in the country and collected the sums that housewives have saved by their frugality, with a minimum of twelve cents a head. Last winter over \$90,000,000 was collected by the Nazi Winter Relief Campaign, of which the monthly one-dish meal is a feature.

Frenchman has succeeded in cross-garlic with a cabbage. Why?

## FALSE TEETH

STICK ALL DAY LONG WITH DR. WERNET'S

A joy to all who don't slip or slide—never causes soreness because teeth fit as snugly as natural teeth. Largest seller in the world—most popular by prescription—its small cost.

Mrs. Knapman arrived from Billingham, Wash., last week end, on a visit to Mr. Knapman and daughter Lilian here, and daughter Mrs. R. C. Foot, at Bellevue. Mrs. Knapman is accompanied by her youngest daughter Elsie.

Thirty-one years ago Blaimore's Alberta Grand Lodge, I.O.O.F., opened its way set at twelve mills on the dollar, covering village and school. And thirty-one years ago Friday evening. The annual session of the Rebekah Assembly opened on Tuesday, and of the Grand Encampment of the Blaimore hotel. "Bo" Drain was the proprietor of the hotel.

As things were becoming a little monotonous in that part of Europe, Greece is trying to stir up a little excitement by putting on a rebellion of considerable magnitude this week. —E.

The thirtieth annual session of the Alberta Grand Lodge, I.O.O.F., opened on Tuesday morning, and continues till Friday evening. The annual session of the Rebekah Assembly opened on Tuesday, and of the Grand Encampment of the Blaimore hotel. "Bo" Drain was the proprietor of the hotel.

## Local and General Items

The Editor will be pleased to receive items for this section, regarding visitors entertained, parties leaving for holidays or short trips, bridge parties, teas, etc. Phone items in to 11 or hand them in at The Enterprise office no later than Wednesday evenings.

Phone or mail in your local news to The Enterprise.

Mr. and Mrs. J. R. Gresham and young son left Saturday morning on a visit to friends at Okotoks.

Bill Kerr's rink, of Bellevue, carried off the Ellison Milling Co. trophy at the Lethbridge hospital last week.

Remember the "Old-Timers" dance in the Lundbreck hall tomorrow night (Friday).

A kiss is like a story sent to a newspaper—usually returned with thanks.

It is said that Sangster, Fisher and Richards have leased the entire ground floor of the Loughheed building on Sixth Avenue north.

Alf. Link is moving his barber shop from the Alberta hotel building to the Wilson building, next door east of C. Sartoris' office.

The local high school team went to Pincher Creek on Thursday night, where they were noised out by a 7 to 1 score.

Mr. and Mrs. Percy Dennis, of Lundbreck district, are being congratulated upon the birth of a son on Monday the 4th, at St. Vincent's hospital, Pincher Creek.

The eighth annual St. Patrick's entertainment, under auspices of St. Anne's Catholic church, will take place in the Columbus Hall on Monday and Tuesday nights next, March 18th and 19th. The programme will consist of the staging of a three-act drama by the grownups, entitled "The Mill of the Gods," with specialty song and dance numbers between the acts by the children.

A Tea and Sale of Home Cooking will be held in Colombo's hall, from 3 to 6 o'clock on the afternoon of Saturday, March 16th, given by the Girl Guides and Brownies. This tea is put on to raise funds in aid of the special train to take the Scouts, Guides and Brownies to the big jamboree in Calgary on Easter Monday, so your liberal patronage for this worthy cause is solicited.

It's laughable to hear some members of the present town council and school board of Blaimore questioning various parties as to where they got their information or got to know so much of what they are doing. As a matter of fact, all their doings are SECRET, known only to the union members and their families—all the 500 school children to wit—and all these are pledged never to say a word. "Bill" should know by now that never before in the history of Blaimore or any other town of its size in a civilized country has the administration of the town affairs or the school affairs been subject to the o.k. of any other organization save the government.

Pete: "Dear, my doughnuts always seem to be so heavy!"

She: "Why not try making them with bigger holes?"

Magistrate: "Have you ever been up before me?"

Accused: "I don't know. What time do you get up?"

Angus (to friend who has bought a second-hand car): "Mon, it'll cost you plenty for gas!"

Donald: "Nae so much. It's down hill to town, and I can get a tow back most days."

"Did the plumber come down to inspect the pipes this morning?"

"Yes."

"What did he say?"

"Oh, he said there wasn't anything much wrong, but he'd go home and get his glasses and a wrench."

Mrs. (Dr.) O'Hagan is confined to hospital at Jasper.

Mrs. Rosie Kowalski was found not guilty of the murder of her infant child at Medicine Hat.

Local tailors are busy building \$25 size pockets in readiness for Social Credit donations.

Malcolm Morrison, former resident of Coleman, now at the Drumheller district, was a visitor with friends at Coleman last week.

We asked an old-timer a few days ago if he had his plans made for 1935 fishing tips. He replied, "No, don't think I'll fish this year. You see, I'm getting so feeble now that I couldn't run away from 'em."

When you get into a tight place, and everything goes against you till it seems as if you could not hold on a minute longer, never give up then, for that's just the place and time that the tide will turn.

J. B. Harmer is again district representative for the Fuller Brush Co., and will be calling on you shortly. Personal and household brushes of every description are now greatly reduced in price, while still of the Fuller superior quality. Save your orders or phone 112.

Rev. J. Williams Ogden, D.D., has presented to the congregation of First United church, Vancouver, a beautiful painting entitled "An Entrance to the House of God." This was presented in appreciation of the minister and the work of the church. It was unveiled at a recent evening service. Dr. Ogden expects to visit the Pass some time in April.

ALBERTA

A teetotaler is a man you never "see" drinking.

The Drumheller district musical festival opened on Tuesday and concludes today.

Sign in a San Francisco cafe: "We know that your cheque is good, but we don't trust the banks."

Prosperity can be said to have returned when men's trousers bag at the pockets instead of at the knees.

A Pass clergyman was heard to remark the other day: "Well, I hope June brides measure up to expectation!"

The community auction sale, held by H. D. Gerry at Lundbreck yesterday, was fairly well attended and a success.

The Dominion government has decided to purchase the Canadian Bank of Commerce building at Innisfail for a postoffice.

Rumor has it that a second story is to be built on the Corner Association building at the corner of Seventh Avenue and Victoria Street.

# The Airstream Chrysler Six

## for 1935

handsome, entirely new, low-priced, streamlined six, 93 h.p. motor, 118 inch wheelbase.

"We'll build," said Chrysler engineers, "another line of cars that will give many of Airflow's advantages at a much lower price—the answer Chrysler Airstream—see how they've done it."

To the eye a striking family resemblance—in the radiator, hood lines, sweeping windshield, tapering rear... and the rear seat has been moved forward... engine forward, too, to get more scientific distribution of weight—and a ride beyond any car at any price except the Airflow.

Hidden values, too. Surging power such as Chrysler knows so well how to provide. Marvelous new diamond-hard pistons. Use... or abuse... or high speed have little effect on them. High compression engines... valve seat inserts that greatly reduce valve grinding. Chrysler pioneered them! A ride in this 1935 wonder car will soon acquaint and convince you that the Airstream Chrysler is just about the lowest priced quality car in the world.
